Use of BLAM Software is subject to following terms.

- You are not allowed resale or redistribute this software in anyway. It is for personal use only.
- Use it at your own risk. Although we've tried our best to make it error-free, it depends on several external services to collect data, so we can't guarantee its performance, accuracy or anything else.
- The software is provided "as is", without warranty of any kind, express or implied, including but not limited to the warranties of merchantability, fitness for a particular purpose and noninfringement.
- In no event shall the authors or copyright holders be liable for any claim, damages or other liability, whether in an action of contract, tort or otherwise, arising from, out of or in connection with the software or the use or other dealings in the software.

Credits and Thanks

Below are some of the resources we used to create BLAM software.

- (1) [Slim micro Framework](#): Slim is an open source PHP micro framework that helps you quickly write simple yet powerful web applications and APIs.
- (2) [TemplateVamp](#): TemplateVamp is a FREE Admin Template for web designers and developers. Based on Twitter Bootstrap, TemplateVamp is a fully functional and customizable admin template that leverages the power and flexibility of HTML5 & CSS3.
- (3) [SEOStats](#): SEOstats is a powerful open source PHP library to request a over 50 SEO relevant metrics such as detailed backlink analyses, keyword and traffic statistics, website trends, page authority, the Google Pagerank, the Alexa Trafficrank and much more. Please note, when you use BLAM software, you also agree to [SEOStats license terms](#).
