TMS EDIT CONTROLS PACK
DEVELOPERS
QUICK START GUIDE

Contents

Supported Delphi and C++Builder versions

The TMS Edit Controls Pack supports following development environments:

Borland Delphi 7 (Professional, Enterprise, Architect)
CodeGear Delphi 2007 (Professional, Enterprise)
CodeGear Delphi 2009 (Professional, Enterprise)
Embarcadero Delphi 2010 (Professional, Enterprise)
Embarcadero Delphi XE (Professional, Enterprise)
Embarcadero Delphi XE2 (Professional, Enterprise)
Embarcadero Delphi XE3 (Professional, Enterprise)

CodeGear C++Builder 2007 (Professional, Enterprise)
CodeGear C++Builder 2009 (Professional, Enterprise)
Embarcadero C++Builder 2010 (Professional, Enterprise)
Embarcadero C++Builder XE (Professional, Enterprise)
Embarcadero C++Builder XE2 (Professional, Enterprise)
Embarcadero C++Builder XE3 (Professional, Enterprise)

The TMS Edit Controls Pack can be simultaneously installed and used on multiple development environments on a single machine.

Supported Operating Systems

Windows 98
Windows Millenium
Windows 2000
Windows XP
Windows 2003
Windows Vista
Windows 2008
Windows 7
Windows 8

Installation

Registered version with Delphi 7,2006,2007,2009,2010,XE,XE2,XE3

- Unzip the file TMSEditControlsREG.ZIP to a new directory "TMSEditControls"

- Add the directory "TMSEditControls" to your Delphi library path

- Open the file TMSEditControlsDx.DPK, compile and install the package.

with x:

x = 7 for Delphi 7
x = 2006 for Delphi 2006
x = 2007 for Delphi 2007
x = 2009 for Delphi 2009
x = 2010 for Delphi 2010
x = XE for Delphi XE
x = XE2 for Delphi XE2
x = XE3 for Delphi XE3

Registered version with C++Builder 2007,2009,2010,XE,XE2,XE3

- Unzip the file TMSEditControlsREG.ZIP to a new directory "TMSEditControls"

- Add the directory "TMSEditControls" to your Delphi library path

- Open the file TMSEditControlsCx.y, compile and install the package.

with x.y:

x.y = 2007.CBPROJ for C++Builder 2007
x.y = 2009.CBPROJ for C++Builder 2009
x.y = 2010.CBPROJ for C++Builder 2010
x.y = XE.CBPROJ for C++Builder XE
x.y = XE2.CBPROJ for C++Builder XE2
x.y = XE3.CBPROJ for C++Builder XE3

Installing online help

Delphi 2006, 2007, 2009, 2010,XE,XE2,XE3 & C++Builder 2006, 2007, 2009, 2010, XE,XE2,XE3

Close the IDE, make sure the process DEXPLORER.EXE is not longer running.

Delphi 2006 Execute: RegHelp2 /i TMSEditdBds4W.hxx

Delphi 2007 Execute: RegHelp2 /i TMSEditdBds5W.hxx
Delphi 2009 Execute: RegHelp2 /i TMSEditdRs2009W.hxx
Delphi 2010 Execute: RegHelp2 /i TMSEditdRs2010W.hxx
Delphi XE Execute: RegHelp2 /i TMSEditdRsXEW.hxx
Delphi XE2 Execute: RegHelp2 /i TMSEditdRsXE2W.hxx
Delphi XE3 Execute: RegHelp2 /i TMSEditdRsXE3W.hxx

C++Builder 2006 Execute: RegHelp2 /i TMSEditbBds4W.hxx
C++Builder 2007 Execute: RegHelp2 /i TMSEditbBds5W.hxx
C++Builder 2009 Execute: RegHelp2 /i TMSEditbRs2009W.hxx
C++Builder 2010 Execute: RegHelp2 /i TMSEditbRs2010W.hxx
C++Builder XE Execute: RegHelp2 /i TMSEditbRsXEW.hxx
C++Builder XE2 Execute: RegHelp2 /i TMSEditbRsXE2W.hxx
C++Builder XE3 Execute: RegHelp2 /i TMSEditbRsXE3W.hxx

Upgrading from previous version

As new properties have been added, some properties have changed, follow
these steps for a trouble free upgrade :

 1) Uninstall TMSEditControls

   -Delphi 7,2006,2007,2009,2010,XE,XE2,XE3

    In the Component Menu, Install packages and remove the package
    in which TMS Edit Controls Pack is located.

   - C++Builder 2007,2009,2010,XE,XE2,XE3

    In the Component Menu, Install packages and remove the package
    in which TMS Edit Controls Pack is located.

 2) Remove all files related to TMS Edit Controls Pack on your HD.
    Sometimes, several copies of a previous version exist and confuse
    the environment

 3) Install the new version

 4) If any projects have been created with a previous version of
    TMS Edit Controls Pack, open these projects and open ALL forms in which
    the Edit Controls Pack has been used. While opening the forms, ignore all errors
    related to properties of these edit controls. Save and close all these
    forms and only then recompile the application.

Updates

The TMS Edit Controls Pack comes with a full version cycle of free updates. A full version cycle means that from version x.y to version x+1.y, the updates are free. For example, if a registration starts at version v2.1, updates are free till version v3.1. The latest date of the updates can be seen after login on our website (see next section). This date reflects the exact file date of the latest update.

Support

TMS Edit Controls Pack registered users have priority support on the special email:
support@tmssoftware.com

For peer to peer support for registered users only, a newsgroup is available. Details about the newsgroup server and login can be found on the registered users page after login on our website.

Website login

Registered users of the TMS Edit Controls Pack receive a code with which it is possible to login on the website to obtain:
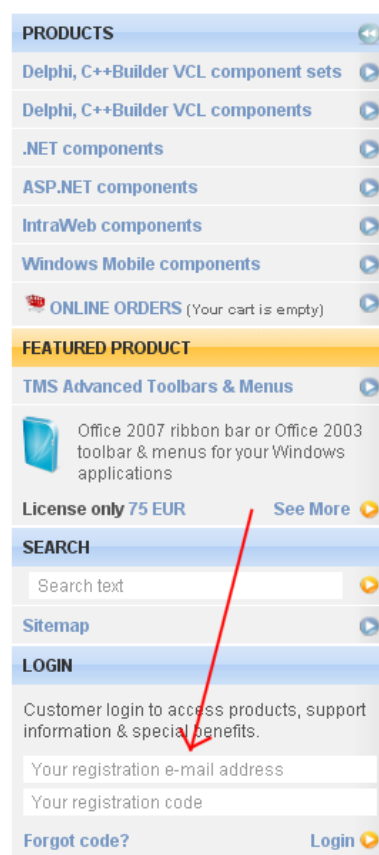

- Free updates for a full version cycle of the components.
- Discount offers on other products
- Access to additional documentation
- Access to samples projects
- Change registration email
- Information for peer to peer support newsgroup access

Login on the website is done with:

- Email with which you registered the TMS Edit Controls Pack

- Code that is sent by email with the first registered version

Direct link to login:
http://www.tmssoftware.com/site/login.asp

Important notes

Keep this email and code in a safe place.

If for some reason, your registration email address changes, the only way to have this updated is by sending email to TMS software to request for a change. The email must be sent from the original email address and specify the new address to change to.

License agreement

The TMS Edit Controls Pack is available with two licensing schemes, a single developer license and a site license. The details of the two license types are below:

TMS Edit Controls Pack single developer license

The single developer license of the component gives you the right to:

- Using the component for development of applications or any type of software module in general by a single developer within the company holding the license.
- Sell any commercial compiled application with the control, published by the company holding the license
- Make modifications to the source code of component for own use.
- Use the component and source code on all development systems used by the developer assigned by the company holding the license.
- Request future versions of the component at any time either through the web or by email for a full version cycle of the component. After expiry of the registration TMS software can no longer provide any old version of software, documentation or samples. TMS software is not a backup service and expects backups to be made by the licensed user.
- Access to priority email support by the single developer assigned by the company holding the license.
- Sell any number of applications in any quantity without any additional run-time fees or royalties required.

The license agreement prevents you from:

- Distributing parts or full source code of any component from TMS software.
- Using parts or full source code of components from the TMS software for creating any type of other components that are distributed or sold with or without source code.
- Changing the source code of any component from TMS software and sell or distribute this as a modified product.
- Creating a descendant compiled product such as OCX or ActiveX control and sell or distribute this as a product.
- Using the control in applications sold with different publisher name than the company holding the license.
- Transfer the license to any other developer than the original registered developer
- Using the components by multiple developers in the company holding the license
- Transfer the license to any other developer than the original registered developer
- Using the components by multiple developers in the company holding the license

TMS Edit Controls Pack site license

The site license of the component gives you the right to:

- Using the component for development of applications or any type of software module in general by a single developer within the company holding the license.
- Sell any commercial compiled application with the control, published by the company holding the license
- Make modifications to the source code of component for own use.
- Use the component and source code on all development systems used by the developer assigned by the company holding the license.
- Request future versions of the component at any time either through the web or by email for a full version cycle of the component. After expiry of the registration TMS software can no longer provide any old version of software, documentation or samples. TMS software is not a backup service and expects backups to be made by the licensed user.
- Access to priority email support by the single developer assigned by the company holding the license.
- Sell any number of applications in any quantity without any additional run-time fees or royalties required.
- Change at any time the number of developers using the TMS software components within the company holding the license.
- Notify TMS software at any time to allow new developers within the company to access the priority email support.
- Allow any number of developers within the company holding the license to access the web based interface for obtaining product updates.

The site license agreement prevents you from:

- Distributing parts or full source code of any component from TMS software.
- Using parts or full source code of components from the TMS software for creating any type of other components that are distributed or sold with or without source code.
- Changing the source code of any component from TMS software and sell or distribute this as a modified product.
- Creating a descendant compiled product such as OCX or ActiveX control and sell or distribute this as a product.
- Using the control in applications sold with different publisher name than the company holding the license.
- Transfer the license to any other developer not working for the company holding the license.

Termination of license

The license agreement terminates immediately after violation of any of the terms and conditions described. A termination of the license means that the company has no longer any rights to use the components for development, sell applications using the components, obtain free updates of the components and is no longer entitled to email support or any other form of support.

The company or developer holding the license is responsible for respecting the terms and conditions of the license agreement and shall thus make sure that no other person has access to the TMS Components to use these for any purposes that violate the license agreement.

Component overview

TAdvDualListBox

Dual listbox component with built-in selectable functions to move/copy item(s) from one list to another

TAdvComboBox

A flat style combobox with attached label

TAdvDBComboBox

DB-aware combobox with attached label with different display values from actual DB field values

TAdvDBDateTimePicker & TAdvDateTimePicker

Date and time picker integrated in one component

TAdvDBLookupComboBox

Advanced DB-aware multicolumn lookup combobox

TAdvDirectoryEdit, TAdvEditBtn, TDBAdvEditBtn, TAdvFilenameEdit, TUnitAdvEditBtn
TAdvEdit, TDBAdvEdit, TAdvMaskEdit, TDBAdvMaskEdit

Edit controls with lots of extra capabilities

TAdvLUEdit & TDBAdvLUEdit

A lookup edit control with extra capabilities

TAdvMoneyEdit

Edit control with attached dropdown calculator

TAdvSpinEdit & TDBAdvSpinEdit

A spin edit control with support for integer, float, time, date, hex

TAdvTreeComboBox

Combobox with true treeview dropdown

TCheckListEdit

An edit control with attached dropdown checklistbox

TColumnComboBox

A combo box with items organized in columns

TColumnListBox

A listbox with items organized in columns

TDBLUCombo, TLUCombo, TLUEdit, TDBLUEdit

A combobox and edit control with automatic lookup

TEditBtn & TUnitEditBtn

An edit control with extra button

TEditListBox

Inplace editable listbox with insert / delete items at runtime

TMaskEditEx

Mask editor with automatic cursor positioning + focus release

TMS Curvy Controls

Rounded Apple OSX style edit, combobox, panel, memo

TMoneyEdit & TDBMoneyEdit

An edit control with dropdown calculator

TAdvListEditor

Edit control to edit a list of values in a flexible way similar to the Microsoft Outlook or iOS email address input
